Enquiry No. 12083

Gates required for Nugu Reservoir Project.

Gentlemen,

No. S.P.C. 50277-306. Please be good enough to intimate your best prices and the earliest time of delivery for the materials described in the schedule appended herewith.

The prices quoted should hold good for a period of twelve weeks from the last day fixed for receiving the tenders.

The Stores Purchase Committee do not bind themselves to accept the lowest or any quotation and reserve to themselves the right to select from any quotation only such article or articles as may be considered expedient to accept.

Firms should specify rates per unit in the Schedule which should include all charges such as packing, freight, cooly hire, etc., for delivery on rail at Nanjangud Railway Station, Mysore State, Southern Railways.

All indents should be promptly attended to and all articles must be delivered within the time specified in the indent. In the event of failure to deliver the articles within the time stipulated the Department reserve the right to make purchase in the open market to the extent necessary at the contractor's risk and expense, and also to levy in addition a sum equal to 3 per cent of the contract price of such articles as may not be delivered in time, as liquidated damages.

No representation for enhancement of rates once accepted will be considered during the currency of the contract.

In cases where f. o. r. Nanjangud rates are accepted the contractors should book the consignments "Freight Paid". Demurrage charges incurred by the failure to prepay the railway freight from the place of despach will be debited to the suppliers.

In the case of articles rejected as not being in accordance with the specifications, etc., or as have been received in damaged condition, the supplier should be prepared to take them back and replace them by correct materials without additional cost to Government.

If any firm withdraws from their quotation before the period of Twelve Weeks fixed for acceptance or if the firm whose quotation is accepted fails to execute the agreement, the penal clauses hereinbefore set forth will be enforced.

In matters of dispute regarding the supply not being in conformity with the specifications, etc., or the performance of the terms of the contract, the decision of the Stores Purchase Committee shall be binding.

Sales-tax, if any, should be shown separately.

The quotations will be opened at 2 P. M. on the next working day after the closing date.

Quotations should be delivered in sealed covers, superscribed "Quotations for the Gates for Nugu Reservoir Project".

To

The Secretary,
Stores Purchase Committee,
'United India' Buildings, Bangalore-2.

Please note that all rates should be quoted **in Indian currency.**

The closing date of the enquiry is 1st February 1954 and on no account, it will be extended.

GENERAL.

The firms should indicate the break up of weights and costs as well as the type of steel to be used in each case.

All materials used in the manufacture of the components of these gates shall have properties best suited for the purpose and in accordance with the best engineering practice and shall conform to the applicable specifications of American Society of Testing Materials or British or other recognised European Standard Specifications.

All work shall be performed and completed according to the best modern practice in the manufacture and fabrication of materials of the types covered by these specifications, notwithstanding any omissions from these specifications and drawings. The supplier shall warrant all materials and workmanship furnished by him to be free from defects. He shall replace free of cost to the Government any defective materials discovered during erection and shall pay the actual costs of rectification of the same.

The firms supplying gates can furnish their own design if information is readily available for the profile of the bellmouth portion with supporting data and mentioning the co-efficient of the discharge realisable.

The firms are free to suggest any modifications they consider suitable for adoption in the design of gates.

To suit our construction programme it is necessary that the built in parts for the deep sluice gates are delivered within three months, and for crest gates within 6 months and all other parts within 12 months from the date of accepting the quotation.
